Food cost worksheet

Owner or accountant, monthly

Opening stock + purchases − closing stock = consumption. Divide by food sales.

Outlet: _____ Date: _____ Done by: _____

LINE	WHERE IT COMES FROM	AMOUNT (₹)
Opening stock at cost	Last stock-take, valued at weighted-average cost	
+ Purchases	GRNs for the period, not invoices	
− Closing stock at cost	This stock-take	
= Consumption (COGS)		
Food sales (ex GST)	Sales report, food only	
Food cost %	Consumption ÷ food sales × 100
